

MCMS60

MOBILE CEMENT SILO

MCMS60 MOBILE CEMENT SILO

Designed and developed to the highest British Standards, the **MCMS60 Mobile Cement Silo** is the latest innovation on the Mobile Range market for the concrete production industry.

Some benefits of the mobile cement silo:

- Easy to manoeuvre/park
- Easy access for maintenance
- Suitable for height restriction areas
- No concrete foundations necessary (if you have a hard compacted ground)
- Self erecting – no crane required
- Fully integrated chassis on the silo
- Own brakes and lighting system as per road regulations
- Extension platform to fit items eg: generator, water tank, portable office, admixture tanks, diesel tank, etc
- Extra jacklegs to hold heavy items on platform
- Own aeration system
- Fully dressed with filter box, high level alarm system
- No escort vehicle or authorities notification needed when on the road
- Very cost effective when moving to a different site.

Robustly built as to be expected of **McCrorry Engineering!**

Quality and reliability guaranteed!

SPARE PARTS

“ 25 years experience give us the ability to offer consultation, expert advice, manufacture and installation of any type or size of concrete batching plants ”
